CYBER THREAT INTELLIGENCE [2023]

HYBRID EDITION

6th INTERNATIONAL CONFERENCE

NOVEMBER 2023 | MARQUEE HALL, MARRIOTT HOTEL | ISLAMABAD, PAKISTAN

I am pleased to share with you that TOTAL Communications is presenting 6th Cyber Threat Intelligence (CTI) Conference in November 2023 at Marquee, Marriott Hotel, Islamabad.

In 21st century, any country's growth is dependent on the security, food, water, energy, financial sector, and data/information. The cyber security has become even more important because the operations of other sectors are also heavily dependent on technology which requires protection from constantly evolving cyber threats. Likewise, cyber space, has become fourth dimension just like air, sea and land which requires protection from belligerent states. A country cannot be considered independent and protected unless its military's cyber security capabilities are effective and robust.

Knowing your enemies and the methods of their attacks in advance so that the negative outcome of adversary events / actions can be prevented is important. Such evidence based advance knowledge of threat actors is threat intelligence, which is essential for the protection of cyber space of any country.

Sensing the need of an industry platform, Total Communications initiated "Cyber Threat Intelligence Day" in year 2018. The aim of this planned conference was to raise awareness and to provide an independent and neutral platform to discuss the prerequisites and benefits of a mature cyber-threat intelligence program. Cohesive and coordinated flow of verified cyber threat intelligence among the stakeholders and private/public sector entities is the cornerstone of any cyber threat intelligence program. Therefore, effort will be made to institutionalize the flow of information so that the critical infrastructure of the country does not fall prey in the hands of the hackers with a diversified motivation and background.

Every year around 200 people attend this premier event from Armed Forces, private enterprises, universities, financial sector, public sector organizations, national and international companies specializing in cyber security.

We feel this is an excellent opportunity for your organization to be a part of this one of its kind event before a very meaningful audience. Attached is the participation package for your consideration.

An earliest confirmation will ensure better placement in the event.

I look forward to hear from you.

Kind Regards,

Faisal Rahim
Chief Executive
